REC CONNECTORS

Founded in Milan in 1983, R.E.C. Italia S.r.l. has a proud history in the design and manufacture of interconnect products, serving prestigious customers in both the military and industrial markets.

We remain the only company in Italy solely focused on connectors.

The following R.E.C. branded products boast Italian engineering whilst staying among the most competitively-priced in Europe.

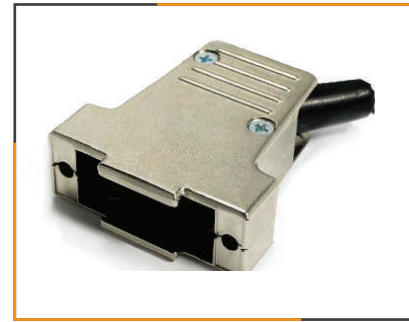

RMS

- 5015 threaded style
- Intermateable with all 5015
- Crosses to mil MS310x and all military layouts available
- RoHS finishes available
- Both solder and crimp contacts available

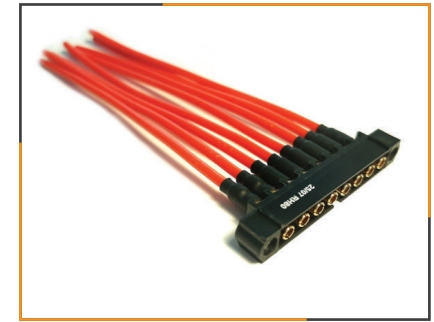

RPT

- 26482 series 1 bayonet style
- Intermateable with all 26482 series 1 and 2
- Crosses to mil MS312 and all military layouts available
- RoHS finishes available
- Solder + industrial crimp contacts available

HOODS

- 9, 15, 25 and 37 way versions available
- 90% shielding guarantee
- Perfectly interchangeable with FCT/Molex FMK line

RH80

- 2mm pitch
- Up to 50 contacts
- For use in high-vibration environments, mostly military
- REC specialty is hybrid layout (signal + coaxial contacts)
- Contacts available with PCB or crimp termination
- Multiple fixing options available
- Intermateable and interchangeable with most common manufacturers

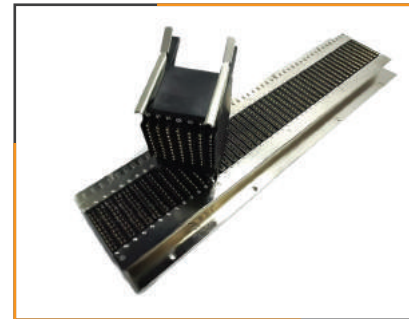

RK 18-10

- 5015 threaded style connector (18-10 layout only)
- First-mate, last break safety, using conductive shell for grounding
- Backshell can be used straight or at 90 degree angle
- IP67 class
- RoHS finishes available
- Both solder and crimp contacts

RB

- 5015 style bayonet connector
- All military 5015 layouts available
- Built to VG95234 standard
- Intermateable with Amphenol /ITT Cannon/VEAM/fGlenair equivalent
- RoHS finishes available
- Both solder and crimp contacts

MODULAR ADAPTER CONNECTOR (MAC) TEST SYSTEM

- Test system is an interface between test equipment and cable harness
- Standard model comes with 500 contacts
- The R.E.C. Branded Test System has 5000 mating cycles, which is the highest on the market
- Perfectly intermateable with CK Technology and DIT-MCO systems
- ABS polymer body makes this more lightweight than competition
- Patented easy crimp system, which allows for reuse of contacts

REC BRANDED CABLE AND OVERMOULDING

- Cable manufactured to customer specification
- UL/CSA certification available
- Cable types include include: Flexible cable Extraflexible cable Pair twisted cable Bus cable
